

# REMOVE IMPURITIES & RESIDUE WHILE RESETTING SKIN PH

Our hydrating toner provides extra cleansing, rebalances skin's pH, and extends the benefits of glycolic acid to provide smoother, fresher-looking skin. Formulated to minimize stinging it contains soothing emollients and skin conditioners to leave skin looking fresh and radiant.

**GLYCOLIC ACID** - one of the most effective and well-researched forms of Alpha Hydroxy Acids (AHA) it provides a wide array of skin benefits. Primarily it functions as an exfoliant that sloughs off the outermost dead layer of the skin (Stratum Corneum) promoting skin renewal and cell turnover.

Its versatility also helps to reduce dullness, minimizes pores, reduces wrinkles, improves hyper-pigmentation, and helps correct blemished or acne prone skin.

Our professional strength toner contains 4.2% Glycolic Acid naturally derived from sugar cane.

**HYALURONIC ACID** - a beneficial humectant that retains and draws-in moisture to the skin while smoothing the appearance of fine lines and wrinkles.

**ALOE BARBADENSIS (ALOE VERA) LEAF JUICE** - a natural plant extract with soothing properties, antioxidant qualities, and hydrating agent.

**ALLANTOIN** - a time-tested skin emollient that soothes & conditions skin.

PREPARE

**INGREDIENTS:** Purified Water, Glycolic Acid, Polysorbate 20, Sodium Hyaluronate, Aloe Barbadensis Leaf, Allantoin, Lavandula Angustifolia (Lavender) Oil, Potassium Sorbate, Sodium Benzoate, Sodium Hydroxide, Glyceryl Caprylate, Glyceryl Undecylenate.
