

MINERALS AND PEPTIDES IMPROVE OVERALL COMPLEXION

Reviva introduced topical trace minerals in our products over 35 years ago. But we've upped the game with our Peptide Facial Skin Prep. Not only does it bathe your skin in trace minerals, it's also infused with hyaluronic acid, argireline, and DMAE to kick-start your anti-aging and hydrating while it energizes your skin – making it more receptive to follow-up treatments.

PREVENT

CARRAGEENAN - a red seaweed based trace mineral complex consisting of Magnesium, Calcium, Potassium, Phosphorous, Sodium, Iron, Manganese, Zinc, and Copper. Studies show that trace minerals are essential to overall skin health.

HYALURONIC ACID - used topically, it can help boost skin's moisture content, reduce inflammation, and help prevent moisture depletion.

DMAE – tightens and firms the skin and alleviates sagging skin - it's often called "a facelift in a jar."

ACETYL HEXAPEPTIDE-3 - a synthetic peptide derived from natural proteins that lessens the appearance of fine lines and wrinkles.

INGREDIENTS: Purified Water (Aqua), Carrageenan [Trace Mineral Complex: Magnesium, Calcium, Potassium, Phosphorous, Sodium, Iron, Manganese, Zinc, Copper], Acetyl Hexapeptide-3, Sodium Hyaluronate, DMAE Bitartrate, Glycerin, Benzyl Alcohol, Ethylhexylglycerin, Tocopherol.

MSRP: \$29.95
