

# IMPROVE THE APPEARANCE OF BRUISED SKIN WHILE NOURISHING

Reviva Labs' Vitamin K Crème combines a variety of plant extracts with 2% Vitamin K to help reduce the appearance of bruised skin, reviving your skin's appearance more quickly. Soybean oil, lactic acid, and fruit extracts help improve the skin's barrier and reduce moisture loss. This affordable bruise cream has also been used to relieve and improve the appearance of under-eye dark circles.

**LACTIC ACID** - an alpha hydroxy acid that helps to slough off the outer "dead or damaged" layer of skin cells to improve the appearance of fine lines, wrinkles, and texture while aiding in moisture retention.

CORRECT
