

ELASTIN & DMAE ELEVATE YOUR SKIN'S YOUTHFUL APPEARANCE

Reviva's hydrolyzed elastin enhances your skin's youthful tautness, resulting in a firmer and more supple complexion. Simultaneously, DMAE visibly improves skin firmness and tightness. When combined, this powerful duo delivers a noticeably firmer and tighter appearance to both your face and neck.

SUNFLOWER OIL - rich in Vitamin E and antioxidants that help to soothe and hydrate the skin to maintain a healthy complexion.

DMAE - tightens and firms skin's appearance and alleviates sagging skin - it's often called "a facelift in a jar."

ELASTIN - highly specialized elastic protein found in the connective tissue of skin that gradually lessens as we age. Hydrolyzed Elastin is a humectant that helps trap moisture, holding it against the skin.

CORRECT
