

NOTICEABLY **IMPROVES** THE APPEARANCE OF **SLACKENED** SKIN

Reviva's DMAE* Concentrate offers high-potency 5% DMAE whereas other creams or serums generally offer 1/2% to 1% DMAE. Higher-potency DMAE concentrate is ideal for helping skin to appear more firm and toned – especially the throat and facial areas for a more supple, more youthful look.

DIMETHYLAMINOETHANOL (DMAE) - is an organic compound often called “facelift in a jar” by skin care specialists, because it helps firm and tighten the skin. With regular use DMAE will give skin a more defined, youthful appearance. Dermatological studies report that this ingredient can help firm and tone throat and facial skin.

PULLULAN - a natural polysaccharide from fermented plants. This is an antioxidant that helps to provide a rapid tightening effect on the skin.

PORPHYRIDIDIUM CRUENTUM EXTRACT - the extract of red algae, rich in polysaccharides that help hydrate the skin by retaining moisture.

ENHANCE

INGREDIENTS: Water, DMAE Bitartrate, Sodium Polystyrene Sulfonate, Hydroxyethylcellulose, Sodium Phytate, Benzyl Alcohol, Ethylhexylglycerin, Hydroxypropyl Methylcellulose, Pullulan, Porphyridium Cruentum Extract, Chondrus Crispus (Carrageenan).
