

COMBAT DEEP WRINKLES WITH MULTIPLE POTENT PEPTIDES

Reviva's Multi-Peptide Complex is a potent mix of peptides designed to combat deep facial wrinkles, including nasolabial folds and stubborn creases like the '11's' between the eyebrows, pronounced forehead lines, and aging furrows. It also addresses lip wrinkles. The formula reduces the visibility of these lines, promoting smoother, fresher, and younger-looking skin.

SYN-AKE - is a peptide mimicking the one in temple pit viper venom. It aids in relaxing muscle contractions, particularly those causing wrinkles over time. By easing these contractions, wrinkle formation is prevented and existing ones appear less noticeable over time.

MATRIXYL - a peptide (palmitoyl-pentapeptide 3) that's widely used in top anti-aging creams. "In early 2013 University of Reading researchers found that Matrixyl can nearly double the amount of the protein collagen needed to give skin its elasticity.

CORRECT

PROGELINE - a Lucas Meyer Cosmetics creation, aids aging skin. It enhances collagen synthesis, curbs progerin5, a protein that accelerates skin aging. Progeline™ clinically lessens aging signs: sagging, wrinkles, and improves firmness, elasticity, and jaw line contour, offering a comprehensive remodeling effect with remarkable results on various facial areas.

ADIPOFILL'IN - a novel anti-aging ingredient, has demonstrated impressive results that enhances the look of slackened and thinning skin in the cheek and nasolabial areas. According to its creator, Lucas Meyer Cosmetics, Adipofill'in can replenish lost volume and plumpness in skin affected by structural aging.
