

BRIGHTER SKIN AND A VISIBLY SMOOTHER COMPLEXION

What happens when you combine Azelaic Acid and Tranexamic Acid with two proven brightening ingredients then add a dash of something special? You get a product unmatched at improving the appearance of skin discolorations and dark spots while visibly enhancing your skin's textural appearance resulting in a more youthful-looking and lustrous complexion.

AZELAIC ACID - an exfoliant with anti-inflammatory properties that also helps to brighten skin discoloration. It's also beneficial at improving blemishes and reducing comedones.

TRANEXAMIC ACID - a skin brightening powerhouse (said to be on par with hydroquinone without its issues) - it fades discoloration, brightens skin, and even reduces the appearance of acne scars.

HEPES - (Hydroxyethylpiperazine Ethane Sulfonic Acid) primarily used as a pH stabilizer / buffering ingredient it also helps to break the bonds that bind dead skin cells to the surface, aiding in exfoliation.

NIACINAMIDE - a powerful antioxidant (Vitamin B3) that also helps brighten dark spots and uneven skin tone while helping to reduce sebum and oil production.

KOJIC ACID - a proven skin brightening ingredient known to help visually improve uneven skin tone, brown or dark spots, and for over all brighter looking skin.

HYDROXYETHYL UREA - a strong moisturizer and humectant - it helps the skin retain water keeping it hydrated and elastic. It replicates what's found on the surface of the skin as part of our natural moisturizing factor (NMF).

CORRECT

INGREDIENTS: Water (Aqua), Propylene Glycol, Azelaic Acid, Isopropyl Palmitate, Niacinamide, Tranexamic Acid, Dimethicone, Kojic Acid, Glyceryl Stearate, Cetyl Alcohol, Cetearyl Alcohol, Polysorbate 60, HEPES, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, PEG-100 Stearate, Aloe Barbadensis (Aloe Vera) Leaf Juice, Hydroxyethyl Urea, Xanthan Gum, Polysorbate 20, Glycerin, Disodium EDTA, Phenoxyethanol, Steareth 100, Ethylhexylglycerin.
