CORRECT

BAKUCHIOL - this ancient herb has received a significant amount of scientific study which has deemed its empirical benefits verifiable. Derived from the psoralea corylifolia (babchi) plant, this vegan alternative to retinol appears to mimic the benefits of Vitamin A: preventing fine lines and wrinkles, and helping with pigmentation, elasticity, and firmness – without the periodic side effects of retinol.

ALFALFA - is a potent, antioxidant-rich ingredient, that includes Vitamins A, B, D, E, and K, chlorophyll, polyphenols, and a plethora of skin-loving minerals.

ARTICHOKE - diminishes the appearance of fine lines and wrinkles while also improving skin elasticity. It helps to minimize pores, boosts collagen, and helps moisture retention. It's also rich in Vitamin C, making it well rounded for your overall complexion.
